PLANET EARTH – WHO’S IN CHARGE?

San Diego, California...At this point, we all need to ask ourselves the question - how long can we pretend that someone else is responsible for our environmental resources, social justice and economic disparity?

The Unity Center is proud to host the Awakening the Dreamer, Changing the Dream Symposium. This Symposium offers a documented view on how the planet got to where it is today and what steps we, as individuals, can take in San Diego to effect positive change in the world. We can work together to bring forth an environmentally sustainable, spiritually fulfilling and socially just human presence on Earth.

This free **Awakening the Dreamer, Changing the Dream Symposium** is on Saturday, October 30, 2010 from 9:00am to 3:00pm and those attending can begin to take charge of where our planet is headed.

As the poet, June Jordan, wrote “We are the ones we’ve been waiting for.”

Lynne Twist, global activist and award-winning author, will make a rare appearance at The Unity Center to present insights into what is happening to the planet in terms of climate change, poverty, and economic crisis. Using inspiring video, up-to-the-minute facts and figures and dynamic group interactions, the world’s leading experts address topics as diverse as the current state of the Earth’s biodiversity and the reality of the socio-economic disparity throughout the world. Attendees will share their concerns about the state of the world with like-minded members of the San Diego community and support each other in taking action.

Registration is required for this event. Register at www.theunitycenter.net.

The Unity Center is located at 8999 Activity Road (one block North of Miramar Rd.) in San Diego, CA 92126. Snacks and lunch will be available for purchase.
